

Reflection evaluation form

Good points:

- There was a good balance between theory and practice.
- The arrival on Monday was well.
- The ISP week was good organised.
- The international aspect.
- The teamwork was encouraged.
- The social event was fun.

Points of attention:

- The objectives of the ISP week needs to be better communicated beforehand.
- For some people the topics of the ISP week were not relevant to their education.
- Activities were too long.
- Activities needs to be more interactive with the students.
- The accommodation does not match with the wishes of everybody.
- It was too much the same (evaluation).
- The evaluation of the DCP was a bit boring and it was repeated a lot.

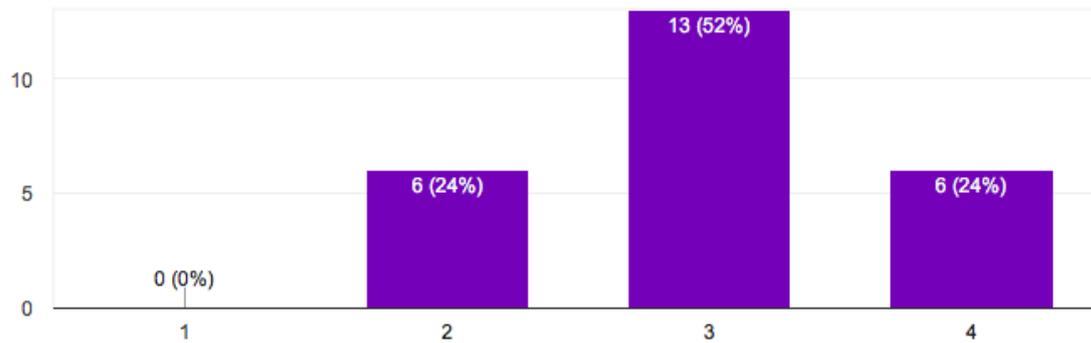

Guidance by Annechien Somers and Monia Kussé:

Most of the participants thought the guidance was good. A few of the students said that they wanted that A+M participated more in the social contact, and e.g. also went to go for a drink after the social event and guide them through Antwerp.

I liked everything a lot

It was a nice week, well organized by monia and annechien!

Annechien and Moniq were very good in keeping everything structured

They did everything very well.

It was very nice. I think you done that very well.

They take care of us.

It was a nice week and very good organizes by Annechien and Monia

They were very kind and always tried to help and solving problems and question.

Missing social contact

Not enough social contact with the students

Both are very nice girls and motivitad. They are doing a lot to make it very comfortable, interesting and had good and various exercises/tasks. I really enjoy it.

Little bit confused at times, but other than that they worked ewal hard on that as you can see

Good structure, they were so motivated

They did everything the good, good job!

They did a great job in organisation etc.

Annechien and Monia explain all the activities very good and the dance was very funny. The Lesson about the Learning Outcomes was very very good.

Annechien and Monia were good to listen at, they were clear and organised it very well.

They were very friendly and good organaised and answered all questions

- Missing social events (e.g. going out for a drink, showing the city,...)
- Clear instructions, but most of the time we did not see you during the tasks even though some people still had questions.
- English speaking was ok

We were missing some social contact with them. In the first part of the week, we haven't seen them a lot. Their language was ok, butthe organisation could be better and more clear.

They were very nice and gave their best

I missed more guidance so that we had more interaction. You weren't always clear and prepared. But still managed to do a great job!

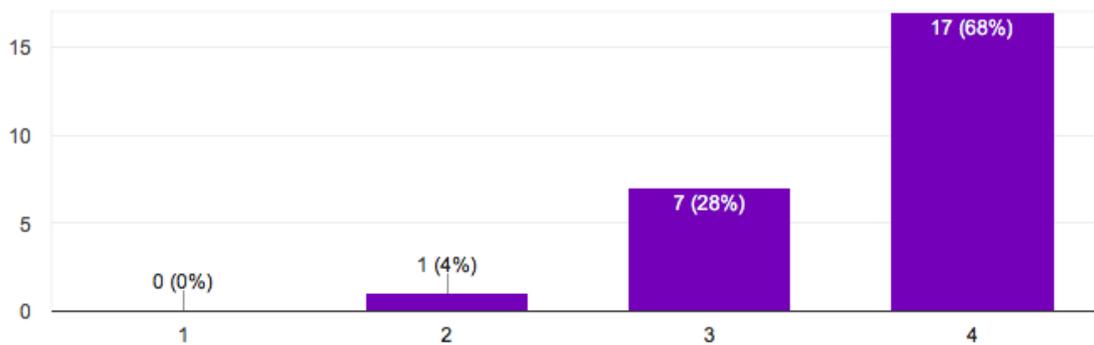

Annechien and Monia explained the objectives of the practices well and they had created nice exercises (such as doing the Macarena in between)

Annechien and Monia did a great job! They are lovely girls and put a lot of energy in their work. They took really good care of use! Dank u well!

They explained everything very well and it was a lot of fun.

I liked the social event on wednesday.

- Meeting other international students
- Exchange, coming together
- I like most the contact between the international students.
- The city. International work.
- Working with international students
- The intercultural interaction
- The dinner
- Testing the mooc because I worked a hole year with my team about a case for the mooc.
- In General to talk with the students from different countries. The Dinner on wednesday was very good for it.
- The city, that the teachers were really interested in our opinion that everybody was very motivated and put in some great effort .
- Experiences about dcp, learning more about intercultural studying
- the international aspect, getting to know people from other countries and getting to know more about their habits.
- The international working with other students
- The activities with people of different countries was very interesting.
- to work with the DCP (cases)
- Social Event
- The people I got to know
- The social contact with the people from other countries.
- The interaction with Students from different countries
- Learning about each other, interacting with the other students. Meeting new people.
- the social event
- to get to know other students and teachers from other countries, who were so nice and sociable and to be part of such a project.
- I like every parts where we worked in groups. I like to go out for a dinner with all the students. I like the parts which are made from Monia and Annechien.

What did you like the least about the ISP - week?

25 reacties

City walk, accommodation, competence flower

Sometimes it took longer than needed

Sometimes activities were to long

Diversified program

I think it was to much evaluation in thursday.

The different education level. No introduction of the teachers.

Sometimes the presentations felt too long and I thought you can say the same in a shorter way

The wensday afternoon stuff

To much the same evaluation

To much the same

The City Guide.... (too much history)

too much Evaluation, kind of repeating itself very much, sometimes too Little time

Time input

long work days

In my opinion the things we should do repeated all over again

That we had to say everything 3 times because at first we ahd to write it down, then we discuss in our group and then we talk to the teachers.

Evaluation of the DCP over and over Ägäis

The return of soms tasks (e.g. reflection and solutions)

Sometimes it was a lot of repetition in the tasks.

Some evaluation parts repeated (DCP)

I felt like most of the time it was repetitive. For example a lot of reflection was done one time for your own group, then again for the whole group and then for the teachers.

Too much theory

?

We had to say everything three times, it was boring to always discuss the same things.

What aspects of the ISP - week could be improved?

25 reacties

See negative, but generally it was a great experience

The activities could be shorter

The activities could be a bit shorter and less long days

Accommodation

Maybe to put the social event on the beginning of the week.

Explanation of the exercises.

The days could last a little bit longer

The cultural evening should be at the beginning of the week

Yes

The guide of the citywalk

Some presentations were too long

time Management

Same Knowledge before the Werk of every student

There was a bit too much theory, and too much about DCP, making it a bit boring

Maybe the exercises

We spent a little bit too many hours to evaluate everything and we had to say everything 3 times.

Maybe 5 days is too long. You can do it in 2 or 3 days.

The Long days

Creativity

For me it would be great that we have more free time to discover the city.
The reflection was often the same so I think it would be good to make one part of the reflection on one day. For instance the DCP on the first day and so on.

How did you like the ISP - week overall?
